

# Work Effectively From Home

Ergonomic support and seated comfort can make a crucial difference for employee health and well-being. Stay focused, engaged and healthy by utilizing these great Haworth products in your home office delivered within six business days.\*

## Seating

Move Often, Sit Well. Haworth's commitment to the science of sitting is grounded in our history of strong design, engineering, and manufacturing—and our ergonomic expertise—to support people at work.

### Fern®

Fern's ergonomic innovations provide back support and respond to your every movement. One options available.

### Zody®

Zody features a patented PAL back system that allows users to set their own comfort through the day. Two options available.

### Very®

Very adeptly responds to the body's movements for user-controlled comfort. Three options available.

### Soji®

Soji is a reliable task seating solution that offers support for a wide range of people, postures, and workstyles. Three options available.

### Bolton®

Bolton provides the essential support and comfort while remaining economically feasible.

## Tables & Ergonomic Accessories

Applying ergonomic principals to workstation layouts will ensure users are physically supported for health and wellness while working. Height-adjustable tables provide ergonomic solutions that promote movement for people throughout the day. Position monitor arms and keyboards to the most comfortable and ergonomic height to help reduce eye, neck and back discomfort.

### Hop®

Hop height-adjustable tables provide ergonomic solutions that promote movement for people throughout the day. Multiple size and finish options available.

### Ergotron® LX Single Monitor Arm

Ergotron monitor arms can attach to just about any table or desktop. They enable quick, responsive adjustments that give each user greater control of their work environment. Three options available.

### Ergotron® Workfit Sit-Stand Desktop Workstation

The Sit-Stand workstation offers generous height-adjustment ranges. Each choice empowers users with greater freedom of movement and control. Two options available.
